## ABOUT ME

- Unity Developer with over 6 years of experience across mobile, PC, and AR/VR platforms.
- Specialized in GPGPU programming (Compute Shaders) and Unity DOTS (ECS, Job System, Burst), with a proven ability to architect massive-scale simulations handling 3,000,000+ active units and projectiles. ([Link](#))
- Expert in high-performance optimization, including projects handling 75,000+ NPCs with complex logic using Unity DOTS. ([Link](#))
- Developed 5 interactive museum projects for the Gallipoli Historical Site, featuring a published iOS & Android application. ([Link](#)) ([Link2](#))
- Proven track record with 10+ published games on Google Play Store.

## TECHNICAL SKILLS

- Programming Languages: C# • Engines/IDEs: Visual Studio, Xcode, Android Studio • Engines: Unity, Unreal Engine • Tools/Frameworks: Zenject, UniTask, Unity Shader Graph, GitHub, Bolt Visual Scripting, Unreal Blueprint, MIT App Inventor
- Performance Tech: Unity DOTS (ECS, Job System, Burst Compiler), Compute Shaders (GPGPU Programming)
- AI Tools & Workflow: Claude Code, Cursor, Unity MCP, Blender MCP, Git, Agile/Scrum

## PROFESSIONAL EXPERIENCE

### BLEIS INTERACTIVE | LEAD UNITY DEVELOPER | (2026-Present)

- Leading a 7-person development team; managing end-to-end development of 4 mobile games.
- Overseeing Unity architecture, code reviews, and performance optimization processes.
- Coordinating project planning, sprint tracking (Agile/Scrum), and Google Play / App Store releases.

### SITULA Informatics | UNITY GAME DEVELOPER | (2021-2025)

- Architected 5 interactive projects for Gallipoli Museums from scratch using OOP and SOLID principles.
- Developed and deployed cross-platform applications for iOS, Android, VR, and Kiosk systems. • Optimized rendering and memory performance for high-fidelity 3D/WebGL museum environments. • Managed full publishing cycles, ensuring successful releases on the App Store and Google Play Store.

### FREELANCE | UNITY GAME DEVELOPER | (2020-Present)

- GPGPU RTS System: Engineered a high-performance simulation using Compute Shaders, handling 3,000,000+ units and projectiles.
- Engineered a high-performance Unity DOTS framework for the Unity Asset Store handling 75,000+ NPCs.
- Published 10+ games on Google Play, focusing on performance optimization and player retention.
- Developed a 3D Color Maze Game for Steam (Space themed 3D puzzle game with fun interactions/surprises with a skin and item shop).
- Prototyped 2D RTS, card-matching, car parking, and physics-based football games using Unity ML-Agents.

### BUSINESS OWNER & OPERATIONS | (2009-2020)

- Leadership: Directed full-cycle business operations, project management, and strategic planning.
- Organization: Managed complex workflows and client relations with a focus on operational discipline.

### IMPORTER & INTERPRETER (China) | (2006-2009)

- Executed end-to-end global logistics, customs procedures, and professional translation in Mainland China.
